

*"SPI Windsurfing was founded to retain and improve present water access locations, as well as to create a safe, fun, and clean environment for all water sports."*

Welcome to South Padre Island's North Flats. The "Flats" is private property and you must be a member of the SPI Windsurfing and Kiteboarding Association to use this launch area. We're all here to have fun but there are a few simple rules we all must follow.

1. Treat the Flats like you own it. It is a private beach.
2. Everyone using the Flats must be a member of SPI Windsurfing and Kiteboarding Association and sign a release form.
3. Every vehicle at the Flats must have a current SPI Windsurfing and Kiteboarding Association sticker. If you see a vehicle without a sticker, please tell the owner they need to be a member to use the Flats. Contact Jibber for Membership Forms and stickers.
4. There is no camping or overnight parking allowed at the Flats.
5. Kites and Windsurfers should rig and launch in designated areas. The rule is simple, Kites need to rig and launch downwind from the windsurfers.
6. Please pick-up your trash.
7. KEEP THE GATE CLOSED AND CHAINED. This is your private beach.
8. The last vehicle to leave the Flats is responsible to lock the gate. The gate lock combination is 0000.

Thanks for being a member of SPI Windsurfing and Kiteboarding Association and helping all of us to enjoy this special place.
